

Connecting World to the Future of Mobility and Energy

**INTERNATIONAL  
ELECTRIC VEHICLE  
AND STORAGE  
EXHIBITION**

**1<sup>ST</sup> - 3<sup>RD</sup>  
AUG 2025**

Expo Centre, Lahore

# ABOUT EVS WORLD 2025

EVS World is where the future of mobility and energy converges—bringing together innovators, manufacturers, and visionaries driving the electric and energy storage revolution. It connects global and local players across the e-mobility and ESS value chain—from EVs and smart charging to advanced battery technologies. The event showcases innovations shaping Pakistan’s clean energy transition and offers unmatched opportunities for B2B networking, investor engagement, and public-private collaboration.

## WHY PAKISTAN ?

EVS World is the country’s first exhibition dedicated to Electric Vehicles and Energy Storage Systems, launched as Pakistan accelerates its shift toward clean mobility. With a target to convert 30% of vehicles to electric by 2030 and reach 60% clean energy, the market is primed for growth. The EV sector alone is projected to hit \$1 billion by 2027. Rising fuel costs, solar adoption, and urban demand are driving momentum. EVSS World offers a prime platform to showcase innovations, forge partnerships, and lead the region’s green transition.

# EXHIBITOR PROFILE

- ⚡ Electric Car
- ⚡ Electric Scooter
- ⚡ Electric Moterbike
- ⚡ Electric Bus
- ⚡ Electric Van
- ⚡ E-mobility Apps
- ⚡ Software Providers
- ⚡ Mobile Service Providers
- ⚡ Industries & Logistics
- ⚡ Regulators and Government Agencies
- ⚡ Electric Charging Stations and Equipment
- ⚡ Electric Vehicle Batteries Manufacturers
- ⚡ Battery Materials / Mining Companies
- ⚡ Autonomous Vehicles / Technology
- ⚡ Energy & Infructure
- ⚡ Telecom Wirless Carriers
- ⚡ Economic Zones
- ⚡ Safety Suits

# VISITOR PROFILE

Electric Vehicle  
Manufacturers

Dealers & Showroom  
Owners and Managers

Importers &  
Exporters

Retailers &  
Suppliers

Battery Manufacturers  
and Distributors
